

## **Benefits and Services for The Boston Consortium (TBC) Members**

### **1. Professional Experienced Team for Time Management and Expert Coordination**

Corporate travel often relies on a tightly bound schedule that delivers employees to various points of contact within a specific time frame. TTC's Team is composed of travel professionals with 20+ years of industry experience. Coordinating all the details that go into a trip is what they do best so they can offer valuable insider tips such as the best route from the airport to the business center, and convenient, affordable lodging.

### **2. Travel Support / 24-hour Global Coverage**

Even the best planned trips don't always go off without a hitch. Flights get cancelled, weather interferes, and things get lost or stolen. TTC provides round-the-clock support after-hours with ETS, *Emergency Travel Service*. In addition, we offer customer support throughout the trip, so that problems can be remedied, sometimes with only a simple text or phone call – avoid the lines at airline counters!

### **3. Cost Effective Domestic & International Air and Hotel /Savings of Time & Money**

TTC Travel Consultants strategize best options rather than being order takers. TTC's knowledge base includes Grant Travel, Fly America and Open Skies requirements. TTC has relationships with travel partners all over the world, giving its clients the benefits of special attention. TTC offers a Worldwide Hotel Program with up to 30% savings off Best Available Rate; 70% of the hotels offer free Wi-Fi; 50% offer free breakfast.

### **4. Group Travel / Inbound and Outbound**

TTC handles Group air movements—from Study Abroad Programs, Student Group Tours and Sports Team Travel to inbound Candidate Interviews, Advisory Boards and Alumni events. Due to close relationships with airline Group Desks, we can oftentimes eliminate deposit requirements and extend deadlines for groups.

### **5. Custom Reporting and Travel Management Services**

We can provide you with the tools to better manage your company's Travel Program. Monthly, quarterly and annual reports summarize your travel spend. These reports provide further insight into cost savings, the status of company airline reward programs, the tracking of unused tickets and more importantly your team's specific travel patterns which are crucial to budgeting and forecasting.

### **6. On-line Booking with Concur / Dedicated Service and Support Team**

Concur Travel gives your travelers a platform for self-booking that includes the air and hotel discounts provided in your proprietary contracts – a platform supported by experienced TTC agents who perform quality control and provide live assistance when needed.
