

Drive 461 Series

Drive is high-performance seating for value-driven customers. Intuitive controls, high-comfort ratings, a versatile statement of line, and a wide range of adjustments make it a great solution for anywhere in the office.

Outer back and outer seat is plastic.

Lumbar adjusts up and down within a 4" range to help ensure healthful back posture.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Face plate is plastic and will match base color.

Upright back lock allows user to lock the back in a full upright position or release it for full-tilt motion.

Arm width adjusts within a 3" range for each arm to provide forearm support in neutral position for 5th to 95th percentile users.

Arm caps can pivot independently to accommodate user preferences.

Seat depth adjusts within a 3" range and is an option on all models. Adjustment paddle is located on left side of chair.

Seat angle adjusts forward, upright, and reclined to suit user.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Five-arm base is steel with plastic cap.

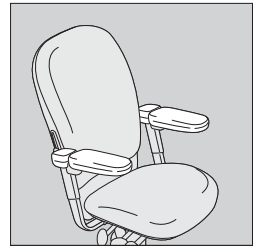

Casters have hard, dual-wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floors or chair mats.
